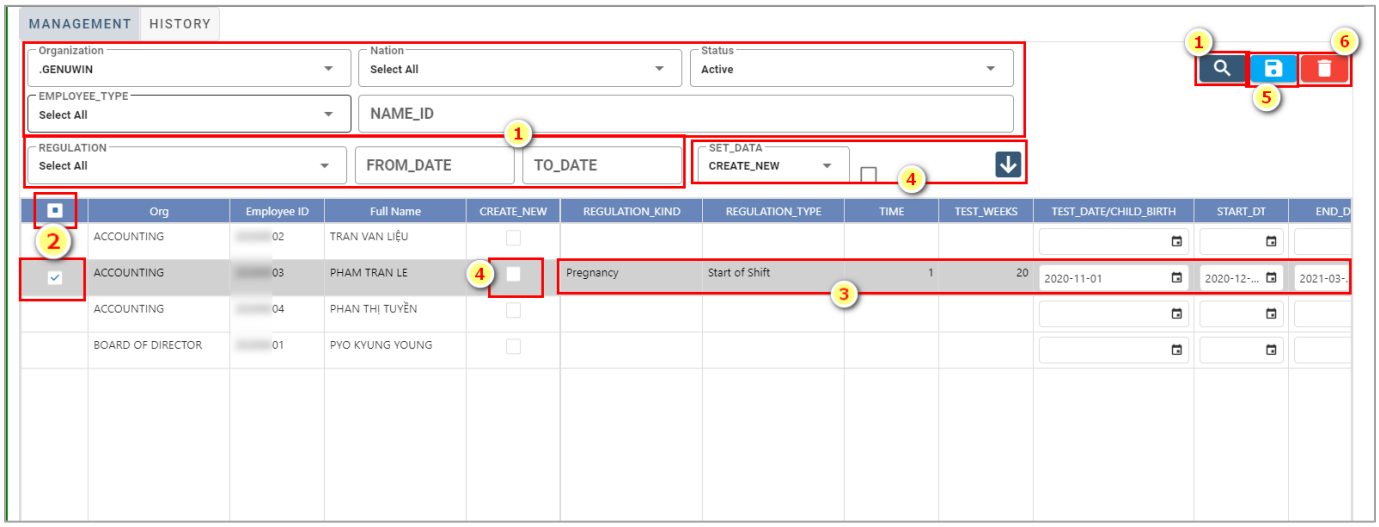
3. Definition:

"Maternity Management" is used to register and manage employees who are 7 months pregnant or nursing a child under 1 year old to enjoy priority working hours. These employees are allowed to work late or leave 1 hour early, depending on the company's regulations.

4. How to use:



1. Input condition searching
2. Tick box to select all or choose each employee
3. Choose **Regulation Kind**, **Regulation Type**, input the number of allowance hours into the box **Times(H)**. If **Regulation Kind** is **Pregnancy**, input the number of week in **"Test Week"** column. If user inputs **"Test Date/ Child Date"** (date of prenatal or baby's birth date) and **"Test Week"**, system will calculate **Start date**, **End date** automatically.
4. User can select multiple employees, tick box **"Create new"** and click button set for them at the same time or tick each box in **"Create new"** column in other to create information for employee.
5. Then click button to save
6. If user want to delete, click
